

Bright Futures™ Experience

On Friday 1st July all year 9 students took part in the “Bright Futures – World of Enterprise Day.”

The programme aims to develop the skills that enterprising people need for the work place, self-employment, entrepreneurship and to become respectable caring citizens.

Students took part in a fun, active and enterprising day. They took part in a range of practical activities that aim to develop work-related and enterprise skills. Working in teams they competed against others to win prizes whilst developing and practicing a range of enterprising skills.

A good day was had by all!

Mrs. Russell-Steele

Head of Business Studies
